

ARMSTRONG METALWORKS™ COLOR & FINISHING CHART

COLOR & FINISHING	DESCRIPTION
 <p>Global White</p>  <p>RAL Color Match</p>	<p>Powder Coat Colours</p> <p>Electro-statically applied and oven cured, powder coat finishes have a greater film thickness than wet paint applications or products manufactured from pre-painted steel coil, and give a more durable and impact resistant surface. Powder coat finishes are UV stable, do not support micro-biological growth and are easily cleaned.</p>  <p>Physical Color or RAL color match available. Min. order applies</p>
 <p>Wood Effects</p>	<p>Wood Effects on Metal</p> <p>Wood Effects combines the attractiveness and exclusivity of a natural wood surface with all the advantages of a metal ceiling. Wood Effects finishing provide the aesthetic touch to complement the performance benefits of a metal tile: durable, light weight and easily accessible. Ideal for applications where traditional materials are not suitable for moisture or structural constraints.</p>  <p>Bamboo Light Cherry Cherry Maple Oak Walnut</p>  <p>Light Bamboo Dark Bamboo Walnut Dark Walnut Cherry Dark Cherry</p>  <p>Oak Maple Light Maple Cabreuva Pradoo</p> <p>Applicable For All Standard Metal Ceiling Panel & Baffles (Exclude Open Cell, Mesh Ceiling System)</p>

Due to printing limitations, shade may vary from actual product.

Design Consideration

Special finishing such as Anodized and Woodeffects may vary in shade between production runs as well as over time. Finishing for different two different MetalWorks™ systems might have subtle different due to difference in production run or paint system in plant. Please consider this when designing adjacent spaces with multiple MetalWorks products where color finishing matches are critical
